How so?• Again, think about the cause and effect relationship and how this may have altered the path of the book you have been reading. <ul style="list-style-type: none">• A LIFETIME TALE IN PICTURES• Draw the main character from a book you have recently read. Show them as a baby, a child (How they appear in the book) and as an older person.• Underneath each picture write what you think they might be doing at that point of their life and explain why they may be doing so.• For example, if you drew Harry Potter as a baby, he might be casting spells on his mum to feed him lots of yummy food.• This activity is very easy for all age groups to adapt their skill level and text style.
